

EGERON, EMMANUEL E. • PRODUCT DESIGNER

Manila, Philippines

Product Designer with 4 years of experience across mobile and web app UX/UI, Design Systems, and Information Architecture in Fintech and Data Science industry.

EXPERIENCE

Product Designer • Tonik Digital Bank

Full-time • Dec 2024 – March 2026

- Led design for Tonik's loan products, the bank's primary profit driver, including an application flow that lets users resume in-progress applications instead of starting over.
- Also contributed to payments and deposit products, including a unified receipt design across payment channels that became part of Tonik's design system.
- Sole designer on these initiatives, partnering with product, business, and engineering teams under Tonik's Head of Design.

UI/UX Specialist • Inquiros, Inc.

Full-time • Mar 2022 – Dec 2024

- Sole UI/UX designer for Inquiros's B2B analytics platform, owning design end-to-end from research through handoff.
- Redesigned the core audience dashboard for easier navigation and added export tools for client reporting, then designed a new location-based data analytics tool from concept through launch.
- Built the product's design system, from components, UX principles, accessible color and type to keep design consistent as the platform scaled.

UI/UX Designer • In Silence AI

Part-time • Mar 2022 – May 2022

- I collaborated as a contractor on In Silence AI's 'Matcha Jobs' project, where I was instrumental in developing the initial concept and design covering user flow, information architecture, branding, and both UX and UI Design.
